INVITATIONAL 2023

Our Mission

HOMES OF HOPE

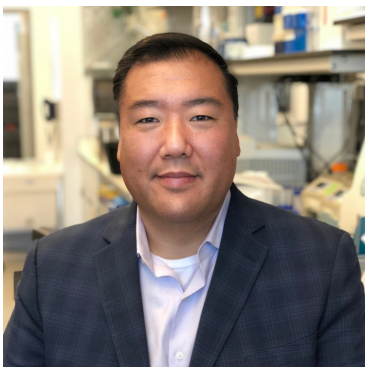

Often, the best chance of a successful outcome for a patient with pancreatic cancer is to travel to a hospital far from home. Travel costs add up quickly, especially when patients consider lodging, transportation, and food. Patients who need housing for extended cancer treatments may need to spend several hundred to several thousand dollars, depending on their length of stay. When considering these costs, it can feel incredibly overwhelming to move forward with treatment far from home.

Homes of Hope aims to ease the financial burden of housing, provide better access to the nation's top cancer hospitals, and provide a "home away from home" to families during their most difficult days.

THE FAMILY FIRST FUND

The Family First Fund aims to remove some of the financial burden and stress that nearly always accompanies a pancreatic cancer diagnosis. This diagnosis is extremely disruptive to a family system, especially in terms of finances, employment, and security.

PANCREATIC CANCER RESEARCH

We strive to work towards better outcomes and treatment by directly funding cutting edge research at the nation's top oncology hospitals. We support research to advance the development of early detection and treatment options available for those diagnosed with one of the most deadly cancers.

Sponsorship Opportunities

**THE REAUMOND
FOUNDATION**
BOB'S ENCORE

Presenting Sponsor \$15,000

5:30PM – Post golf dinner and open bar

ABOUT THE COURSE

The Glen Club, designed by renowned golf course architect Tom Fazio, is a remarkable feat of engineering.

For over 70 years, the land was used as a Naval Air Base complete with runways and a total elevation change of three feet. Today, the land has been beautifully transformed into a dynamic terrain with rolling berms, stunning vistas and naturally harmonious transitions.

The routing features dramatic elevation changes – up to 40 feet on certain holes – mature trees and natural areas, meandering lakes and flowing streams. There are 75 acres of prairie grass flowing naturally throughout the layout.

Each of the spectacular par 3's face a different point on the compass. The par 5's are big and bold yet contain ample driving zones and generous bailout regions. The par 4's range from short and sweet to long and tough. Many elements of a superb Fazio design are here and offer a challenge in many forms, from the classic perched greens undercut by bunkers to the awesome peninsula greens menaced by water.

The finishing 18th hole is one of the most picturesque on the course with two water features and strategically placed bunkers that demand accurate tacking from one safe area to the next. Walking off the 18th green will leave a lasting impression of a spectacular test of skill in an environment that offers an array of memorable golf holes.
